Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Awareness	Stage 2 Financial Assessment	Stage 3 AI-Powered Resolution
Actions <i>What does the customer do?</i>	- Borrower searches for debt relief solutions online - Discovers FinRelief AI platform - Reads about AI-powered negotiation features	- Registers and enters financial profile (income, expenses, debts) - Adds loan details (lender, amount, EMI, interest rate, overdue months)	- Reviews AI-generated settlement letter and negotiation strategy - Views settlement prediction and recommended offer amount
Touchpoint <i>What part of the service do they interact with?</i>	- FinRelief AI Login/Register page - Landing page with feature overview - Navigation sidebar	- Dashboard page / Financial Health page - Loans management page with priority scoring - Financial health score and stress level indicators	- AI Negotiation page / Settlements page - Generated letter display with copy/download option - Settlement history and tracking

Customer Thought <i>What is the customer thinking?</i>	"Can this AI really help me negotiate with my bank?" "Is my financial data safe on this platform?" "I need something that understands my specific situation"	"Do I have the correct details for all my loans?" "The dashboard clearly shows which loan is most urgent" "My stress level is HIGH — I need to act now"	"This settlement offer makes sense for my financial situation" "I feel confident presenting this letter to my lender" "I want to use this again for my other loans"
Customer Feeling <i>What is the customer feeling?</i>	Desperate but hopeful	Engaged and aware	Empowered and confident
Process Ownership	Prasanth (Frontend/UI)	Reyansh (Backend Developer)	Prasanth (AI Engineer)
Opportunities	- Add success stories / testimonials from past users - Include a quick video walkthrough	- Auto-detect loan priority based on overdue severity - Show visual charts for debt distribution	- Show confidence score with AI-generated letters - Offer multi-language settlement letter generation
